Independent Auditors' Review Report

To: The Board of Directors and shareholders of Chien Kuo Construction Co., Ltd.

Introduction

We have reviewed the Consolidated Balance Sheets of Chien Kuo Construction Co., Ltd. and its subsidiaries as of March 31, 2022 and 2021, the Consolidated Statements of Comprehensive Income, Consolidated Statements of Changes in Equity, Consolidated Statements of Cash Flows, and Notes to the Consolidated Financial Statements (including the Summary of Significant Accounting Policies) for the three months period from January 1 to March 31, 2022 and 2021. Management is responsible for the preparation of a set of fairly presented financial statements in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standards 34 "Interim Financial Reporting" endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China. Our responsibility is to express a conclusion on the consolidated financial statements based on our reviews.

Scope

We conducted our reviews in accordance with the Statement of Auditing Standards No. 65, "Review of Financial Information Performed by the Independent Auditor of the Entity" in the Republic of China. A review of consolidated financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Conclusion

Based on our reviews, nothing has come to our attention that caused us to believe that the accompanying consolidated financial statements of Chien Kuo Construction Co., Ltd. do not present fairly, in all material aspects the financial position of the entity as of March 31, 2022 and 2021, and of its consolidated financial performance for the three months period from January 1 to March 31, 2022 and 2021, and its consolidated financial performance and cash flows for the three-month periods then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and International Accounting Standards 34, "Interim Financial Reporting," endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Chien Kuo Construction Co., Ltd. and Subsidiaries
Notes to Consolidated Financial Statements
For the Three Months Ended March 31, 2022 and 2021
(Reviewed Only, Not Audited in Accordance with the Generally Accepted Auditing
Standards in the Republic of China)
(Amount in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

I. Company History

Chien Kuo Construction Co., Ltd. (Hereinafter "the Company") was founded in November 1960. It mainly engages in business relating to design, supervision of modification, and construction of various construction projects of different sizes, as well as trading of construction materials. The Company's stocks, which had been traded on Taipei Exchange since February 1, 1999, were transferred to be listed on Taiwan Stock Exchange in October 2003.

The consolidated financial statements were expressed in New Taiwan Dollars, the Company's functional currency.

II. Date and Procedures of Authorization of Financial Statements

The consolidated financial statements were approved by the Board of Directors on May 10, 2022.

III. Application of New and Amended Standards and Interpretations

(I) The first-time application of the International Financial Reporting Standards (IFRS), International Accounting Standards (IAS), International Financial Reporting Interpretations Committee (IFRIC), and Standard Interpretations Committee (SIC) (hereinafter referred to as "IFRSs") endorsed and issued into effect by the Financial Supervisory Commission (hereinafter referred to as "FSC") with effective date:

The application of the amended IFRSs endorsed and issued into effect by the FSC did not result in significant changes in the accounting policies of the Group.

(II) IFRSs issued by the International Accounting Standards Board but not yet endorsed and issued into effect by the FSC

| New/Revised/ Amended Standards and Interpretations | Effective Date Issued by IASB (Note 1) |
|---|--|
| Amendments to IFRS10 and IAS 28 "Sale or Contribution of Assets between an Investor and its Associate or Joint Venture" | To be determined |
| IFRS17 "Insurance Contracts" | January 1, 2023 |
| Amendment to IFRS 17 | January 1, 2023 |
| Amendments to IFRS 17 "Initial Application of IFRS 17 and IFRS 9 – Comparative Information" | January 1, 2023 |
| Amendments to IAS1 "Classify Liabilities as Current or Non-current" | January 1, 2023 |
| Amendments to IAS 1 "Disclosure of Accounting Policies" | January 1, 2023 (Note 2) |
| Amendment to IAS 8 "Definition of Accounting Estimation" | January 1, 2023 (Note 3) |
| Amendments to IAS 12 "Deferred Tax Related to Assets and Liabilities Arising from a Single Transaction" | January 1, 2023 (Note 4) |
| Note 1. Unless otherwise stated, the aforementioned new standards, interpretations and amendments are effective from the fiscal year after their respective effective dates. | |
| Note 2. These amendments shall be applied prospectively for the annual reporting period beginning on or after January 1, 2023. | |
| Note 3. This amendment shall be applied to changes in accounting estimation and changes in accounting policies that occur during the annual reporting period beginning on January 1, 2023. | |
| Note 4. Except for the recognition of deferred income tax on temporary differences between lease and decommissioning obligations on January 1, 2022, this amendment is applicable to transactions that occur on and after January 1, 2022. | |
| 1. Amendments to IAS1 "Classify Liabilities as Current or Non-current" | |
| The amendment was made to clarify that when liabilities are classified as non-current, the Group's right for deferred repayment of at least 12 months after the reporting period at the end of the reporting period must be evaluated. If such rights are in existence at the end of the reporting period, the liability is classified as non-current | |

regardless of whether the Group will exercise that right. The amendment also clarifies that, if the right to defer settlement is subject to compliance with specified conditions, the Group must comply with those conditions at the end of the reporting period even if the lender does not test compliance until a later date.

The amendment specifies that to achieve the purpose of debt classification, the aforementioned full repayment refers to the transfer of cash, other economic resources or equity instruments of the Group to the transaction counterparty to eliminate the liabilities. However, if the terms of a liability that could, at the option of the counterparty, result in its settlement by a transfer of the Group's own equity instruments, and if such option is recognized separately as equity in accordance with IAS 32 "Financial Instruments: Presentation", the aforementioned terms would not affect the classification of the liability.

2. Amendments to IAS 1 "Disclosure of Accounting Policies"

The amendments expressly stipulate that the Group should determine the disclosure of significant accounting policy information based on the definition of materiality. Accounting policy information is material if, when considered together with other information included in the Company's financial statements, it can reasonably be expected to influence decisions that the primary users of general purpose financial statements make on the basis of those financial statements. This amendment also clarifies that:

- Accounting policy information that relates to immaterial transactions, other events or conditions is immaterial and need not be disclosed by the Group.
- Accounting policy information may be material because of the nature of the related transactions, other events or conditions, even if the amounts are immaterial.
- Not all accounting policy information relating to material transactions, other events or conditions is itself material.

In addition, the amendments provide an example of how accounting policy information may be material if it relates to significant transactions, other events, or conditions and if the following circumstances exist:

- (1) Has been changed during the period by the Group, and this change results in a significant change in the information of the financial statements;
- (2) Was chosen properly by the Group from alternatives permitted by IFRS Standards;
- (3) Was developed in accordance with IAS 8 "Accounting Policies, Changes in Accounting Estimates and Errors" in the absence of an IFRS Standard that specifically applies;
- (4) Relates to an area for which the Group is required to make significant judgments and assumptions; or
- (5) Relates to complex accounting practices, and users of the Company's financial statements would otherwise not understand the relating significant transactions, other events or conditions.

3. Amendment to IAS 8 "Definition of Accounting Estimation"

This amendment defines accounting estimates as "monetary amounts in financial statements that are subject to measurement uncertainty". The accounting policy may require items in financial statements to be measured at monetary amounts that cannot be observed directly and must instead be estimated. Therefore, an input or a measurement technique has to be used to develop an accounting estimate to achieve this goal. The changes are considered as changes in accounting estimates while the effects of changes in accounting estimates from changes in an input or a measurement technique do not belong to correction of prior period errors.

Besides the effects mentioned above, as of the date the consolidated financial statements were authorized for issue, the Group is continuously assessing the effects on its financial position and financial performance of amendments to

the other standards and interpretations. Any relevant effect will be disclosed when the assessment is completed.

IV. Summary of Significant Accounting Policies

(I) Statement of compliance

The consolidated financial statements have been prepared in conformity with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and IAS 34 "Interim Financial Reporting" endorsed and issued into effect by FSC. The consolidated financial statements do not present all the disclosures required for a complete set of annual consolidated financial statements prepared under the IFRSs.

(II) Basis of preparation

The consolidated financial statements were prepared on a historical cost basis, except for financial instruments measured at fair value and net defined benefit liabilities recognized at the present value of defined benefit obligations less fair value of plan assets.

The fair value measurement is classified into 3 levels based on the observability and importance of related input:

1. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities on the measurement date.
2. Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
3. Level 3 inputs are unobservable inputs for the assets or liabilities.

(III) Basis of consolidation

The consolidated financial statements include the financial reports of the Company and its wholly-owned entities. The consolidated statements of comprehensive income include the operating income/loss of the acquired or disposed subsidiaries from the date of acquisition to the date of disposal in the current period. The financial statements of the subsidiaries have been adjusted to bring their accounting policies in line with those used by the Group. When compiling the consolidated financial

statements, all transactions, account balances, income and expenses between the entities were eliminated. A subsidiary's total comprehensive income is attributed to the owners of the Company and non-controlling interests, even if non-controlling interests become having deficit balances in the process.

When a change in the Group's ownership interests in a subsidiary does not cause a loss of control over the subsidiary, it shall be treated as an equity transaction. The carrying amounts of the Group and its non-controlling interests have been adjusted to reflect the relative changes in the interest in the subsidiaries. The difference between the adjustment amount of non-controlling interests and the fair value of consideration paid or collected shall be directly recognized in equity attributable to the owners of the Company.

When the Group loses control over a subsidiary, the gains and losses from disposal is the difference between the following two items: (1) the sum of the fair value of the consideration received and the fair value of the residual investment in such a former subsidiary at the date of loss of control; and (2) the sum of the carrying amount of the assets (including goodwill), liabilities, and non-controlling interests of the former subsidiary at the date of loss of control. The accounting treatment basis on which the Group recognizes the amounts in other comprehensive income in relation to the subsidiary is the same as that, which must be abided by, for the related assets or liabilities directly disposed of by the Group. The Group takes the fair value of the residual investment in the former subsidiary at the date of loss of control to be the initially investment amount in an associate recognized.

Please refer to Note XIII and Appendixes 7 and 8 for details, shareholding ratios, and operations of subsidiaries.

(IV) Other significant accounting policies

Except for the following explanations, please refer to the summary of significant accounting policies in the consolidated financial statements for the year ended December 31, 2021.

1. Post-employment benefits under defined benefit plan

Pension costs for an interim period are calculated on a year-to-date basis by using the actuarially determined pension cost rate at the end of the prior fiscal year, and adjusted for major market fluctuations, major project modifications, payoffs or other major one-off matters for the period.

2. Income Tax

Income tax expenses are the sum of current income tax and deferred income tax. The income tax expenses for an interim period are accrued by applying the tax rate applicable based on expected total annual earnings to the pre-tax income of the interim period.

V. Primary Sources of Uncertainties in Material Accounting Judgments, Estimates, and Assumptions

When the Group adopts accounting policies, the management must make judgments, estimates and assumptions based on historical experience and other critical factors for related information that are not readily available from other sources. Actual results may differ from these estimates.

The Group has taken into consideration the recent development of the COVID-19 pandemic and its possible impact on the economic environment, and has taken into account the significant accounting estimates. The management will continue to review the estimates and basic assumptions. If a revision of estimates only affects the current period, it shall be recognized in the period of revision; if a revision of accounting estimates affects the current year and future periods, it shall be recognized in the period of revision and future periods.

Construction contracts

Income or loss of construction contracts are recognized separately based on the percentage of completion of contractual activities, and the percentage of completion is measured at the proportion of the contract costs incurred to date to the estimated total contract costs. Changes in incentives and compensations stipulated in the contracts will be included in and recognized as contract revenue only when relevant uncertainties are subsequently eliminated and the probability of reversing the amount of accumulated contract revenue is quite low.

As estimated total costs and contractual activities are evaluated and judged by the management based on the nature of the different construction projects, the estimated amount of the contract, the duration of construction, the undertaking of construction and the construction methods, they may affect the calculation of the percentage of completion and the construction income or loss.

(I) Structured notes not yet matured as of the balance sheet date are notes linking up with the stock prices of underlying securities which pay a fixed interest before their maturity dates no matter what the stock prices are. If a price trigger was set up and the stock price is higher than the early exercise price, the note will mature earlier to redeem the principal plus the fixed interest; if the stock price on the maturity date is less than the exercise price, in addition to the fixed interest, the note will be converted into stocks holding the underlying securities at the exercise price. Contracts not yet maturing are as follows:

| | <u>\$ 499,761</u> | <u>\$ 548,679</u> | <u>\$ 459,517</u> |

The Group invested in domestic and foreign common stock pursuant to its medium-term and long-term strategies for the purpose of making a profit. The management elected to designate these investments to be measured at fair value through other comprehensive income as they believed that recognizing short-term fluctuations in these investments' fair value in profit or loss would not be consistent with the aforementioned strategy of holding these investments for long-term purposes.

For financial assets pledged at fair value through other comprehensive income, please refer to Note XXVIII.

Accounts receivable

The credit policy of the Group is mainly contract-based, and the notes receivable and accounts receivable are not interest-bearing. To minimize credit risk, the management of the Group has delegated a team responsible for determining credit limits, credit approvals and other monitoring procedures to ensure that follow-up action is taken to recover overdue debts. In addition, the Group reviews the recoverable amount of each individual account receivable

on the balance sheet date to ensure that adequate allowance is made for possible irrecoverable amounts. As such, the Group's management concludes that the credit risk has been significantly reduced.

The impairment assessment of the Group's accounts receivable is based on individual assessment, aging analysis, historical experience and analysis of customers' current financial position to estimate the amount of irrecoverable receivables. Some of the overdue receivables are under legal proceedings in accordance with the written agreements.

In determining the recoverability of accounts receivable, the Group considers the change in the quality of credit from the time the receivables are originally granted to the time they are presented on the balance sheet. An appropriate allowance for loss is recognized when the receivables are assessed to be irrecoverable beyond the credit period.

The Group writes off accounts receivable when there is information indicating that the debtor is experiencing severe financial difficulty and there is no realistic prospect of recovery of the receivables. For accounts receivable that have been written off, the Group continues to engage in enforcement activity to attempt to recover the receivables due. Where recoveries are made, they are recognized in profit or loss.

Aging analysis of notes receivable of the Group is as follows:

| | December 31, | | |
|-------------|----------------|-----------|----------------|
| | March 31, 2022 | 2021 | March 31, 2021 |
| Not overdue | \$ 8,460 | \$ 34,536 | \$ 142,258 |

| Employee stock options | 205 <u>\$ 204,852</u> | 205 <u>\$ 204,852</u> | 205 <u>\$ 204,852</u> |

(1) This type of additional paid-in capital may be used to offset deficits, if any, or to distribute cash dividends or to transfer to capital, but the transfer is up to a certain ratio of paid-in capital every year.

(III) Retained earnings and dividend policy

According to the earnings appropriation policy set forth in the Articles of Incorporation of the Company, the annual net income, if any, should be used to pay off all the taxes and duties, as well as to compensate prior years' deficits. The remaining amount, if any, should be appropriated in the following order:

1. Provide legal reserve pursuant to laws and regulations.
2. Provide (or reverse) special reserves pursuant to laws and regulations or for operating necessities.
3. The remaining balance, along with unappropriated earnings of prior years, shall be proposed by the Board of Directors for earnings distribution, which shall then be resolved by the shareholders' meeting.

For the appropriation policy regarding compensation to employees and remuneration to directors as set forth in the Company's Articles of Incorporation, please refer to Note XX (VI).

The Company's dividend policy takes into account the environment and growth of the industry, long-term financial plans and optimization of shareholders' equity. Cash dividends to be appropriated in a year shall not be less than 10% of the total dividends to be appropriated for the year.

The Company appropriates and reverses special reserves in accordance with the regulations in Jin-Guan-Zheng-Fa's Letter No. 1010012865 from the FSC and "Q&A on the Applicability of the Appropriation of Special Reserve after the Adoption of the International Financial Reporting Standards (IFRSs)." If other shareholders' equity deductions are reversed afterward, the reversal may be applicable for the appropriation of earnings.

The Company shall set aside a legal reserve until it equals the Company's paid-in capital. Such legal reserve may be used to offset deficits. If the Company has no deficit and the legal reserve has exceeded 25% of the Company's paid-in capital, the excess may be distributed in cash.

The Company held the board of directors on March 24, 2022 and will hold the regular shareholders' meeting on July 22, 2021, and respectively propose and resolve the 2021 and 2020 earnings distribution proposals as follows:

| | Proposal of Earnings Appropriation | | Dividends per Share (NT\$) | |
|---|------------------------------------|-----------|----------------------------|---------|
| | 2021 | 2020 | 2021 | 2020 |
| Legal reserve | \$ 42,086 | \$ 37,308 | | |
| Appropriation (reversal) of special reserve | (34,566) | 34,854 | | |
| Cash dividends | 257,440 | 205,952 | \$ 1.00 | \$ 0.80 |

The distribution of earnings for 2021 is subject to the resolution of the Stockholders' meeting to be held on June 21, 2022.

XIX. Revenue

(I) Revenue from contracts with customers

| Diluted earnings per share | <u>\$ 0.18</u> | <u>\$ 0.54</u> |

Net income and weighted average number of shares of common stocks used for calculation of earnings per share are as follows:

Net income

| | January 1 to March 31, 2022 | January 1 to March 31, 2021 |
|---|--------------------------------|--------------------------------|
| Net income attributable to owners of the Company | <u>\$ 46,327</u> | <u>\$ 138,408</u> |

| Weighted average number of shares of common stock used for the calculation of diluted earnings per share | <u>258,563</u> | <u>258,712</u> |

If the Group may choose between stocks or cash for distribution for employee remuneration, it assumes stocks would be distributed in the calculation of diluted EPS. The potential shares of common stock with dilutive effect shall be incorporated in the weighted average number of shares outstanding when calculating the diluted EPS. Such dilutive effect of potential shares of common stock is still included in the calculation of diluted earnings per share before the shareholders' meeting in the following year resolves the number of shares to be distributed to employees.

XXIII. Disposal of Subsidiaries

The Group completed the disposal of all equity interests in Wuxi Chien Bang on February 5, 2021. The disposal proceeds of Wuxi Chien Bang was NT\$556,378 thousand (RMB 126,000 thousand).

XXIV. Information on Cash Flows of Investment Activities of Non-cash Transactions

The financial assets measured at fair value through profit or loss that the Group purchased amounted to NT\$2,210 thousand from January 1 to March 31, 2022 are recognized as other payables on March 31, 2022 due to settlement-date lag.

On March 31, 2021, financial assets measured at fair value through profit and loss that the Group purchased and disposed of for NT\$28,683 thousand and NT\$7,473 thousand, respectively, from January 1 to March 31, 2021, are recognized as other payables and other receivables, respectively, due to settlement-date lag.

XXV. Capital Risk Management

The objective of the Group's capital management is to ensure that the Group can continue as a going concern, that an optimal capital structure is maintained to lower the cost of capital, and that returns are provided to

shareholders. To maintain or adjust the capital structure, the Group may adjust dividends paid to shareholders, refund capital to shareholders or issue new shares to lower its debts.

XXVI. Financial Instruments

(I) Fair value of financial instruments that are not measured at fair value

Please refer to the information stated in the consolidated balance sheets. The management of the Group believes that the carrying amounts of financial assets and financial liabilities not measured at fair value approximate their fair values, such that their carrying amounts recognized in the consolidated balance sheets are used as a reasonable basis for estimating their fair values.

(II) Fair value of financial instruments measured at fair value on a recurring basis

There was no transfer between Level 1 and Level 2 fair value measurement for the three months ended March 31, 2022 and 2021.

2. Valuation techniques and inputs applied to Level 2 fair value measurement

| Type of Financial Instruments | Valuation Techniques and Inputs |
|-------------------------------|---|
| Structured notes | Measured by option valuation model. |
| Structured deposits | The fair values of structured deposits are measured by the yield rate derived from the principal amount of the deposits and the operation of the main investment areas. |

3. Valuation techniques and inputs applied to Level 3 fair value measurement

The fair value of private equity funds is estimated based on the valuation report provided by the fund company.

The fair value of unlisted stocks without active market is estimated with reference to recent financing activities.

The unobservable inputs applied by the Group were a 10% discount for liquidity and a 10% discount for minority interest on March 31, 2022, December 31, 2021, and March 31, 2021. When other inputs are held constant, a 1% discount would decrease the fair value by NT\$8,463 thousand, NT\$3,747 thousand and NT\$1,766 thousand, respectively.

(III) Types of financial instruments

Note 1. The balance includes financial assets measured at amortized cost, which comprise cash and cash equivalents, restricted bank deposits, time deposit and repurchase notes, note receivables, accounts receivable, other receivables, and pledged certificate of deposit.

Note 2. The balance includes financial liabilities at amortized cost, which comprise notes payable, accounts payable, other payables, and short-term and long-term loans.

(IV) Financial risk management objectives and policies

The daily operations of the Group are subject to a number of financial risks, including market risk (including foreign exchange rate risk, interest rate risk and other price risks), credit risk and liquidity risk. The overall financial risk management policy of the Group focuses on the

uncertainties in the financial market to reduce the potentially adverse effects on the financial position and performance of the Group.

Financial risk management of the Group is carried out by its finance department based on the policies approved by the Board of Directors. Through cooperation with the Group's operating units, the finance department is responsible for identifying, evaluating and hedging financial risks. The Board of Directors has established written principles with respect to the overall risk management, and there are policies in writing for specified scope and matters, such as foreign exchange rate risk, interest rate risk, other price risks, credit risk, utilization of derivatives and non-derivatives and investment of remaining liquidity.

1. Market risk

(1) Foreign exchange rate risk

The Company has repatriated its offshore funds with the applicable Repatriated Offshore Funds Act; therefore, the Company is exposed to the risk of fluctuation in the exchange rate.

Please see Note XXXI for details on carrying amounts of significant monetary assets denominated in foreign currencies on the balance sheet dates.

Sensitivity analysis

The Group is mainly exposed to USD and RMB fluctuations.

The following table details the Group's sensitivity to a 1% change in New Taiwan Dollars against the relevant foreign currencies. The rate of 1% is the sensitivity rate used when reporting foreign currency risk internally to the key management, and represents the management's assessment of the reasonably possible range of changes in foreign exchange rates. The sensitivity analysis includes only outstanding monetary items denominated in foreign currencies and is used to adjust the translation at the end of the period to a 1% change in the exchange rate. The positive figures in the table below show the increase in

income before tax when the currency appreciates by 1% against the combined entity's functional currency.

| | Effect on Profit or Loss | |
|-----|--------------------------------|--------------------------------|
| | January 1 to March 31, 2022 | January 1 to March 31, 2021 |
| | \$ 4,256 | \$ 1,514 |
| RMB | 223 | 1,892 |
| USD | | |

(2) Interest rate risk

The interest rate risk of the Group is mainly from cash and cash equivalents. Cash and cash equivalents held at floating interest rates expose the Group to the cash flow interest rate risk, and part of such risk is offset by loans made at floating rates. Cash and cash equivalents held and loans made at fixed interest rates expose the Group to the fair value interest rate risk. The policy of the Group is to dynamically adjust the proportion of instruments of fixed interest rates and those of floating interest rates based on the overall trend of interest rates.

The carrying amounts of financial assets and financial liabilities of the Group with exposure to interest rate on the balance sheet dates are as follows:

| | December 31, | | |
|---------------------------------------|-----------------------|--------------|-----------------------|
| | <u>March 31, 2022</u> | <u>2021</u> | <u>March 31, 2021</u> |
| With fair value interest rate risk | | | |
| - Financial assets | \$ 1,235,015 | \$ 1,871,198 | \$ 2,025,589 |
| - Financial liabilities | 300,183 | 223,662 | 484,005 |
| With cash flow interest rate risk | | | |
| - Financial assets | 974,702 | 1,153,352 | 1,105,611 |
| - Financial liabilities | 499,865 | 499,862 | 499,851 |

Sensitivity analysis

The sensitivity analysis below is prepared based on the risk exposure of derivative and non-derivative instruments to the interest rates at the balance sheet date. For liabilities at floating interest rates, the analysis assumes they are outstanding throughout the reporting period if they are outstanding at the balance sheet date. A 100 basis point increase or decrease is used when reporting the interest rate risk internally to the key management, and represents the management's assessment of the reasonably possible range of changes in interest rates.

If interest rate increases/decreases by 100 basis points, holding other variables constant, the Group's income before tax will increase/decrease by NT\$1,187 thousand and NT\$1,514 thousand for the three months ended March 31, 2022 and 2021, respectively.

(3) Other price risks

The Group is exposed to price risk as a result of investing in financial assets such as beneficiary certificates and domestic and foreign listed stocks. The Group diversifies its investment portfolio to manage the price risk of investments in financial instruments.

Sensitivity analysis

The sensitivity analysis below is based on the exposure to price risk at the balance sheet date.

If the price increases/decreases by 10%, the income/loss before tax for the three months ended March 31, 2022 and 2021 would have increased/decreased by NT\$230,772 thousand or NT\$167,038 thousand, respectively, due to a change in the fair value of financial assets at fair value through profit or loss.

If the price increases/decreases by 10%, the other comprehensive income before tax for the three months ended March 31, 2022 and 2021 would have increased/decreased by

NT\$49,976 thousand and NT\$45,952 thousand, respectively, due to a change in the fair value of financial assets at fair value through other comprehensive income.

2. Credit risk

Credit risk refers to the risk of financial loss of the Group arising from default by clients or counterparties of financial instruments on the contractual obligations. The policy of the Group in response to credit risk is as follows:

Customers

The Group's established internal credit policy requires that all entities within the Group manage and conduct credit analysis on every new client before stipulating the terms and conditions of payment and delivery. The internal risk control assesses clients' credit quality by taking into account their financial position, past experience, and other factors. Individual risk limits are set by the management based on internal or external ratings. The utilization of credit limits is regularly monitored.

As the group of clients of the Group is vast and they are unrelated, the concentration of credit risk is low.

3. Liquidity risk

- (1) The cash flow forecast is performed by each operating entity of the Company and compiled by the Company's finance department. The finance department monitors the forecast of circulating capital needs of the Company to ensure that the Company's funds are adequate to finance its operations.
- (2) The following tables detail the Group's non-derivative financial liabilities grouped by the maturity date. Non-derivative financial liabilities are analyzed based on the remaining period from the balance sheet date to the contractual maturity date. The

contractual cash flows disclosed below, including those of interest and principals, are undiscounted.

| | <u><u>\$ 662,874</u></u> | <u><u>\$ 658,579</u></u> | <u><u>\$ 653,779</u></u> |

XXIX. Significant Contingent Liabilities and Unrecognized Contract Commitments

Except for those disclosed in other notes, significant commitments and contingencies of the Group on the balance sheet date are as follows:

(I) The construction project of the National Kaohsiung Center for the Arts (Weiuying) (hereinafter referred to as "the Project") undertaken by the Company was completed on December 16, 2016, and the Ministry of Culture of the Republic of China (hereinafter referred to as "the Ministry") began the initial acceptance inspection on February 20, 2017. Per instructions of the Ministry during the acceptance inspection process, work completed in phases was delivered for use, while other interface projects were still undergoing construction within the same space. The Ministry even allowed public access to some facilities without turning on related equipment to maintain appropriate temperature and humidity, which resulted in unexpected damage and deficiencies to the Project. The Ministry required the Company to repair the damaged part, which caused

the Project's failure to conform to the acceptance procedures within the time limit. As a result, the Ministry proposed to impose a default penalty on the Company for the delay. The Group deemed such application of law was wrong and in violation of the principles of fairness and reasonableness. Therefore, it filed a request for mediation to the Complaint Review Board for Government Procurement under the Public Construction Commission of the Executive Yuan (the "Commission") on October 9, 2018. Since no consensus was reached during the mediation of the Commission, the Group submitted a request for arbitration on August 6, 2020. According to the arbitration result on September 15, 2021, the remaining project payment and the refund of the paid default penalty due by the Ministry to the Group amounted to NT\$80,726 thousand, and the amount was booked by the Group.

(II) Shing Tzung Development Co., Ltd (hereinafter referred to as "Shing Tzung") and its responsible person, Lu, Kuo-Feng, constructed a commercial-residential hybrid complex that has 5 floors below ground and 26 floors above ground at Land No. 537, Lingzhou Section, Kaohsiung City. Due to poor construction of diaphragm walls, buildings at Lane 187, Ziqiang 3rd Road suffered severe tilts, wall cracks and subsidence on July 20, 2014. Due to the Group's active participation in the repair work, a total of 25 house owners transferred a certain amount of their creditors' rights to the Group, by which the Group had petitioned the court for a provisional attachment against Shing Tzung and its responsible person, and a claim of NT\$25 million plus the statutory delay interest accrued thereon from them. In 2018, the court held an initial judgment that Shing Tzung had also paid related expenses for such an incident and thus agreed to the contention of Shing Tzung that the expenses already paid by Shing Tzung should offset the credit rights to which the Group might be entitled. Therefore, the plaintiff's case was rejected. Based on the court judgment, the Group has recognized as a loss the total amount of NT\$25 million that was previously recognized as "payment on behalf of another party."

In addition, Shing Tzung claimed that it had suffered loss from the incident and should have demanded compensation from the subcontractor responsible for constructing the diaphragm wall. However, Shing Tzung turned to the Group for compensation for the incident because the subcontractor had insufficient capital. The Group also had suffered loss from the incident and, consequently, filed a claim against Shing Tzung for compensation (including expenses incurred by the Group's participation in the repair work) and demanded that Shing Tzung return the promissory notes of performance guarantee to the Group. Regarding the two lawsuits, the Kaohsiung Qiaotou District Court ruled that the Group shall pay Shing Tzung NT\$10,477 thousand plus interest calculated at 5% per annum from July 8, 2015 to the settlement date and that Shing Tzung shall pay the Group NT\$27,382 thousand plus interest calculated at 5% per annum from October 30, 2015 to the settlement date. The two parties appealed to the Kaohsiung Branch of the Taiwan High Court during the legal period, and the first court session was held on January 4, 2021. The lawyers of Shing Tzung stated that it would take a little more time to prepare the relevant documents because of the change of lawyers. Therefore, the court scheduled the second verbal debate for April 22, 2021. The judge instructed that the disputed items of Shing Tzung should be sent to supplementary appraisal. The appraisal unit has held an appraisal meeting, and the appraisal report is currently pending so that the outcome of the judgment cannot be assessed.

- (III) On March 15, 2013, the Group and Kingland Property Corporation Ltd. (formerly known as DSG Technology Inc., hereinafter referred to as "Kingland") signed a construction contract, under which two parties covenanted to contract the Group for the construction project named "Fu-yi River Residential Construction Project" on Land No. 440, Zhuangjing Section, Xindian District, New Taipei City. The Group had completed the various stages of work as specified by the contract and, together with Kingland, completed the acceptance of the residential units and inspection

of communal facilities. Due to a large portion of the residential units being unsold and thus the condominium management committee failed to be established, Kingland, by putting up various excuses, refused to make progress with any follow-up inspections or acceptance, and furthermore refused to make the remaining contract payments and additional payments due to the Group. The Group then submitted a request for arbitration on October 22, 2019, demanding Fuyi Company to pay the remaining balance and the amount for additional works by the Group NT\$57,370 thousand. The arbitration conference ended on March 5, 2021, and the arbitration judgment was received in early April, 2021. After the two parties settled based on the arbitration judgment, the Fuyi Company should pay the Group approximately NT\$45,000 thousand for the remaining balance of construction contracts, and the Group has booked the settlement according to the arbitration result.

- (IV) As of March 31, 2022, the performance guarantee letters issued by the bank for construction projects of the Group amounted to NT\$1,432,145 thousand.
- (V) As of March 31, 2022, the guaranteed bills issued by the Group for business needs amounted to NT\$200,120 thousand.

XXX. Other Matters

As of the date of approval and issue of the consolidated financial statements, the Group has concluded that the outbreak of COVID-19 has no material impact on its operational capability, fundraising, and impairment of assets. The Group will continue to monitor and evaluate future developments of the outbreak.
